BURLINGTON TEMPERANCE DYNA-MITERS IN HOT WATER.

Kokomo Officers Have Names Eighteen in the Mob-Tipton Tally-

Sheet Forgery Cases. Special to the Indianapolis Journal.

KOKOMO, Ind., Sept. 2.-The so-called temperance residents of Burlington who, last Friday night, sent the village saloon up the flume for the seventh time in the past seven years, will get into trouble over the last act of demolition. Officer Welty, of Kokomo, was there during the violence and secured the names of eighteen of the participants and a score or more witnesses, giving all the necessary material for a successful prosecution, which will probably follow without delay. Everett Taylor, the man who sought to reopen the saloon at Burlington, has just been ousted out of Flora by remonstrance, and was on his way to Burlington with two wagon loads of beer when the exasperated villagers destroyed the building he expected to move into. The demolition was no surprise to the building, for it has become accustomed to it, but Taylor was astonished on his arrival, and had he not braten a hasty retreat his stock of ligour would have been emptied into the street by the enraged populace. While temperance people generally are in sympathy with the residents of Burlington in their efforts to keep out saloons, they do not justify mob violence in secur-ing that desired end. Though the quart shop, as it is being conducted under the present liquor law is a pestilence, Taylor had a right under that law to do business in Eurlington, having paid his license.

At the April term of court a plea in abatement was filed by the attorneys of Monroe Hoover, who is under indictment, charged with changing and altering election returns. When the case was called he charged the court officials with fraudulently impaneling a grand jury for the purpose of finding indictments against certain persons. The plea

Bottle-Glg as Men Declare There Is No Trust in This State. pecial to the Indianapolis Journal.

ANDERSON, Ind., Sept. 2. - The report sent out from Ingalls to the effect that there was a combination of all the bottle manufacturers in the West is without foundation. The report located the offices of the new trust in Anderson. The Journal correspondent called on all the manufacturers in this city this morning, and found the story still new to them. Mr. John Shies, president of the Pennsylvania Glass Works | Olney Sunday and in company with City in the country, said: "There is absolutely nothing in the story, and I am at a loss to understand how such a report could have been put in circulation from that point. There has been talk of such a move for the past four years, but we are no nearer together to-day than we were when it was first approached. There are some of the ants that are radically opposed to the dan, and I am certain that such a move annot be consummated, and I am in a pottion to know what I am talking about.

MUNCIE, Ind., Sept. 2.—Charles Baldt, resident of the Muncie Flint Glass Cominy, and Thomas F. Hart, of the Dunkirk Fint Glass Company, desire the statement made that the special sent out from Ingalls that a combine had been formed by manufacturers of bottles was untrue. WINCHESTER, Ind., Sept. 2.—George E. Leggett, who lives in this city, president of the Woodbury Glass Company, of Parker, which owns and controls two of the largest

bottle plants in the State, denies that there is a bottle glass trust being organized.

Saloon Keepers Bunceed .

Special to the Indianapolls Journal. LOGANSPORT, Ind., Sept. 2 .- The probabilities are that the city of Logansport will have a batch of damage suits on her hands within a short time on account of the action of the authorities in closing the saloons to-day. There are thirty-nine saloons in the city and all received instructions on Saturday to remain closed today. There is a technicality on which most of the suits may be avoided. Saloons Frozen Out. Special to the Indianapolis Journal.

FRANKLIN, Ind., Sept. 2.-Opponents to the saloon in this city are rejoicing over their first victory under the Nicholson law. Two saloon keepers had given notice that they would apply for license, for the ensuing year, at the meeting of the County Commissioners. These saloons were both located in the First ward of the city. Reonstrances were circulated and 230 out of 280 voters in that ward signed the papers. The overwhelming majority caused the saloon keepers to make no application, and they will quit the business. One of them will open a grocery store and the other will continue in the ice and restaurant business. Of the seven saloons in the city, six are located in the First ward, so

Four World's Records Broken at the Bayonne Contests.

BAYONNE, N. J., Sept. 2.-Four world's the New York Athletic Club, who will be matched against the London Athletic Club next month. "Tommy" Conneff, the famous little Irish runner, won the special one-and-one-half-mile race in time that lowered the records for the one-and-onehalf-mile and one-and-one-quarter-mile distances. The previous record for one and one-quarter miles was 5:49, made by W. J. Day, and Conneff reached that mark in 5:38 4-5. The one-and-one-half-mile record, made by Sid Thomas, of London, in 1893, was 6:53 3-5, and Conneff finished the race in 6:46 2-5, beating Bean, of Boston, and Orton, of New York. Stage, Goodwin and Wefers in the oneundred-yard dash, and he won the event in a fine burst of speed at the end, but in the ordinary time of 10 1-5. That his speed was not greater may be accounted for by the fact that he was not harder pressed, or that he competed in Chicago Saturday and has been traveling East since then. In the trial heat of the hundred-yard dash Wefers beat Crum by a few inches at the tape in 10 1-5 seconds. The Western man had evi dently a bit of speed reserved for the final, Goodwin, of Louisville, Ky., won the second heat from Tommy Lee, and was made an equal favorite with Crum for the final. The Kentuckian's friends were doomed to disap ntment, as Goodwin, after leading up to the 90-yard mark, was passed by Crum, Wefers and Lee, who finished as named, Crum winning by six inches, while twice that distance separated Wefers and Lee.

TO MOVE THE CROPS.

Treasury Department Busy Sending Out Small Notes.

WASHINGTON, Sept. 2.-The furnishing of small notes and silver dollars to meet the demand for money to move the crops is likely to absorb the energies of the Treasury Department during the next few weeks more than the demand for gold. The demand is not so active this year as it has ometimes been and is not expected to be, because the national banks are better equipped than usual with small notes, their ury itself has been making its recent shipments of money in notes of \$5 and \$10. There is a large supply of both these denominations in the currency reserve vaults of the treasury. The supply of notes for \$1 and \$2 is not so large, but can be increased if necessary. There is little discrim nation in the demands on the treasury as to the character of the paper currency sent out, so long as it is in new bills for small denominations. The usual policy of the department is to unload silver certificates as far as possible, to follow these by Sherman treasury notes, and to retain the old legal-tender notes until the last. The diffusion of small Sherman notes in distant arts of the country prevents their presen ation at the subtreasuries for rede in gold and the hoarding of the legal-tenders cuts off in a measure the excess of currency redeemable in gold at New York.

Debs's Letter Rend to a Crowd at Terre Haute and Senator Voorhees Indorses It-In Other Towns.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Sept. 2.-Labor day was celebrated her with a parade in the morning and amusements at the fair ground in the afternoon. There were 10,000 people on the grounds, many of whom listened to the speeches of Senator Voorhees and Colonel McLean, ex-Deputy Commissioner of Pensions. Colonel McLean had been introduced to speak, when there were calls for the reading of the letter from Eugene Debs, and so persistent was the demand that the speaker had to suspend his remarks to permit the letter to be read. The letter is lengthy, and is devoted almost entirely to denunciation of Judge Woods, whom Debs likens to King Darius, citing his treatment of the prophet Daniel. Debs admits that he is not a Daniel, but says he is "in jail by the decree of an autocrat."

Senator Voorhees referred to this incident later on, and said it was natural that Debs's fellow-citzens wanted to hear from

him. The Senator said: "I consulted with Debs's counsel when the case was before the Supreme Court, and I know that Debs is suffering a penalty that the Constitution does not warrant. A lawful conviction must be preceded by an indictment and trial by a jury. A ranker, grosser and bitterer piece of injustice never blotted the pages of our federal judiciary. I am the last person to be responsible for William A. Woods, because I opposed his confirmation by the Senate. I did so because he is a narrow man. He has plenty of ability, but he lacks the underlying principles of honesty. I have no fear in de-nouncing the decision of the Supreme Court. NO PRIZE-FIGHTING TO BE PER-MITTED IN THE STATE OF TEXAS.

This is a case to test the validity of the

State law regarding prize fights. Application for a writ of habeas corpus will at once be made to the Court of Criminal Appeals, the tribunal of last resort. Should the court declare there is no law against glove contests, an application will be made to the Supreme Court for a mandamus compelling the State Controller to issue a license for the Corbett-Fitzsimmons contest. A new code went into effect in Texas to-day completely changing the civil and eriminal laws of the State. It is in this code that the anti-prize-fight law is contained which the attorneys of the Florida Athletic Club claim is conflicting and unconstitutional. The test case now brought will settle the question as to the validity of the law and make plain the status of the Corbett-Fitzsimmons contest. Under the law the charge against the men is simply a misdemeanor, not punishable by peni-tentiary service. The writ of habeas corpus will probably be asked for to-morrow and there will be a hearing and probably a dethere will be a hearing and probably a decision in a week.

This afternoon the Dallas Athletic Club tenderd Tax Collector Jacoby \$500 for license to pull off the Clark-Cavanaugh fight. Collector Jacoby explained that he would very willingly make out the license, but he had no blank; in fact, no blank had ever been printed for that kind of a license. He then turned to the law, which, in substance says that if any collector shall give stance, says that if any collector shall give a manuscript or any other species of receipt for taxes, except the regular blank furnished by the controller, such collector shall be guilty of a misdemeanor, and, on conviction, fined from \$100 to \$500, and may be dismissed from office. An action will at once be fiied to compel Jacoby to issue the license according to law. This will be carried through the courts and be the test contest on the 3d of October. Judge Clint, of the Criminal District Court, empaneled his grand jury this mornng and charged it with regard to prize fighting. If the jury should become satis-
